Verus Animal Nutrition now represents Adisseo feed additives

Alpharetta, GA (May 19, 2009) ... Verus Animal Nutrition began representing Adisseo feed additives May first in western Canada. Verus gains access to a unique portfolio of animal nutrition products; Adisseo customers gain stronger, more adapted technical support.

Adisseo is one of the largest manufacturers of animal nutritional additives and solutions in the world. It develops, manufactures and markets four families of feed additives:

- Rovabio[®], a multi-enzyme product that improves the digestibility of raw materials;
- MetaSmart[®] and Smartamine[®], a unique range of methionine products for ruminants;
- Microvit[®], a whole range of high-quality vitamins; and
- Rhodimet[®], methionine, an essential amino acid for monogastrics.

Verus, headquartered in Calgary, Alberta, provides swine health management services, nutrition products and applied expertise to livestock producers and feed manufacturers in western Canada.
